THINGS TO CONSIDER

ABOUT YOUR CHILD'S INTERESTS & FAMILY PREFERENCES

- What is the camp's program emphasis?
- What is the daily schedule at the camp, and does that fit your schedule?
- Will the activities interest your child?
- Will your child have a chance to learn new skills and work on old ones?
- Is there a difference in the programs offered for younger and older children?
- Does the daily schedule include quiet and active times, group and independent activities?
- Is there a discount for siblings attending the same program? If financial considerations are keeping you from planning a camp experience for your child, inquire about sliding scale fees or scholarships. Don't be shy!
- How does the camp handle special needs?
- Is there a nurse on staff? Are special foods available for those with restricted diets?

ABOUT THE STAFF

- Does the staff have experience working with school-age children?
- Have they received specialized training?
- How many children does each counselor supervise?
- Is additional staff added for field trips and other activities that call for extra supervision (swimming, for example)?
- Will someone be supervising your child at all times?
- Is anyone on the staff trained to handle medical emergencies? Are there written health, safety, and emergency rules? What is the camp's policy when a child gets sick or has an accident?
- What are the ages of the camp counselors?
- How does the staff handle behavioral or disciplinary problems?

ABOUT THE RULES

- Can parents visit the camp at any time? Are there any special activities scheduled that include parents?
- What are the camp's rules about communication with children during the day?
- Are questions and comments from parents encouraged?
- The camp's background: Call the American Camping Association at (765) 342-8456 to find out if the camp is accredited. You may review Inspection Reports on any camp by calling the Department of Health:
 - Albany County: (518) 447-4625
 - Rensselaer County: (518) 270-2626
 - Saratoga/Washington/Warren Counties: (518) 714-4004
 - Schenectady County: (518) 386-2818
 - Fulton County: (518) 736-5720
 - Montgomery County: (518) 853-4011

ABOUT THE FACILITY

- Does the camp seem safe, well-maintained, and clean?
- Is the outdoor area large enough for sports and activities? Is the indoor space large enough for the children in bad weather?
- Do the activity areas have enough materials and equipment to make them interesting?
- Do campers have enough space to work and play in groups as well as individually?
- If the camp provides transportation, where and when are children picked up and dropped off? Will a staff member be there to supervise them? Do staff members ever ride on the bus with the campers?
- What does the camp/program fee include? Are there any extra charges?

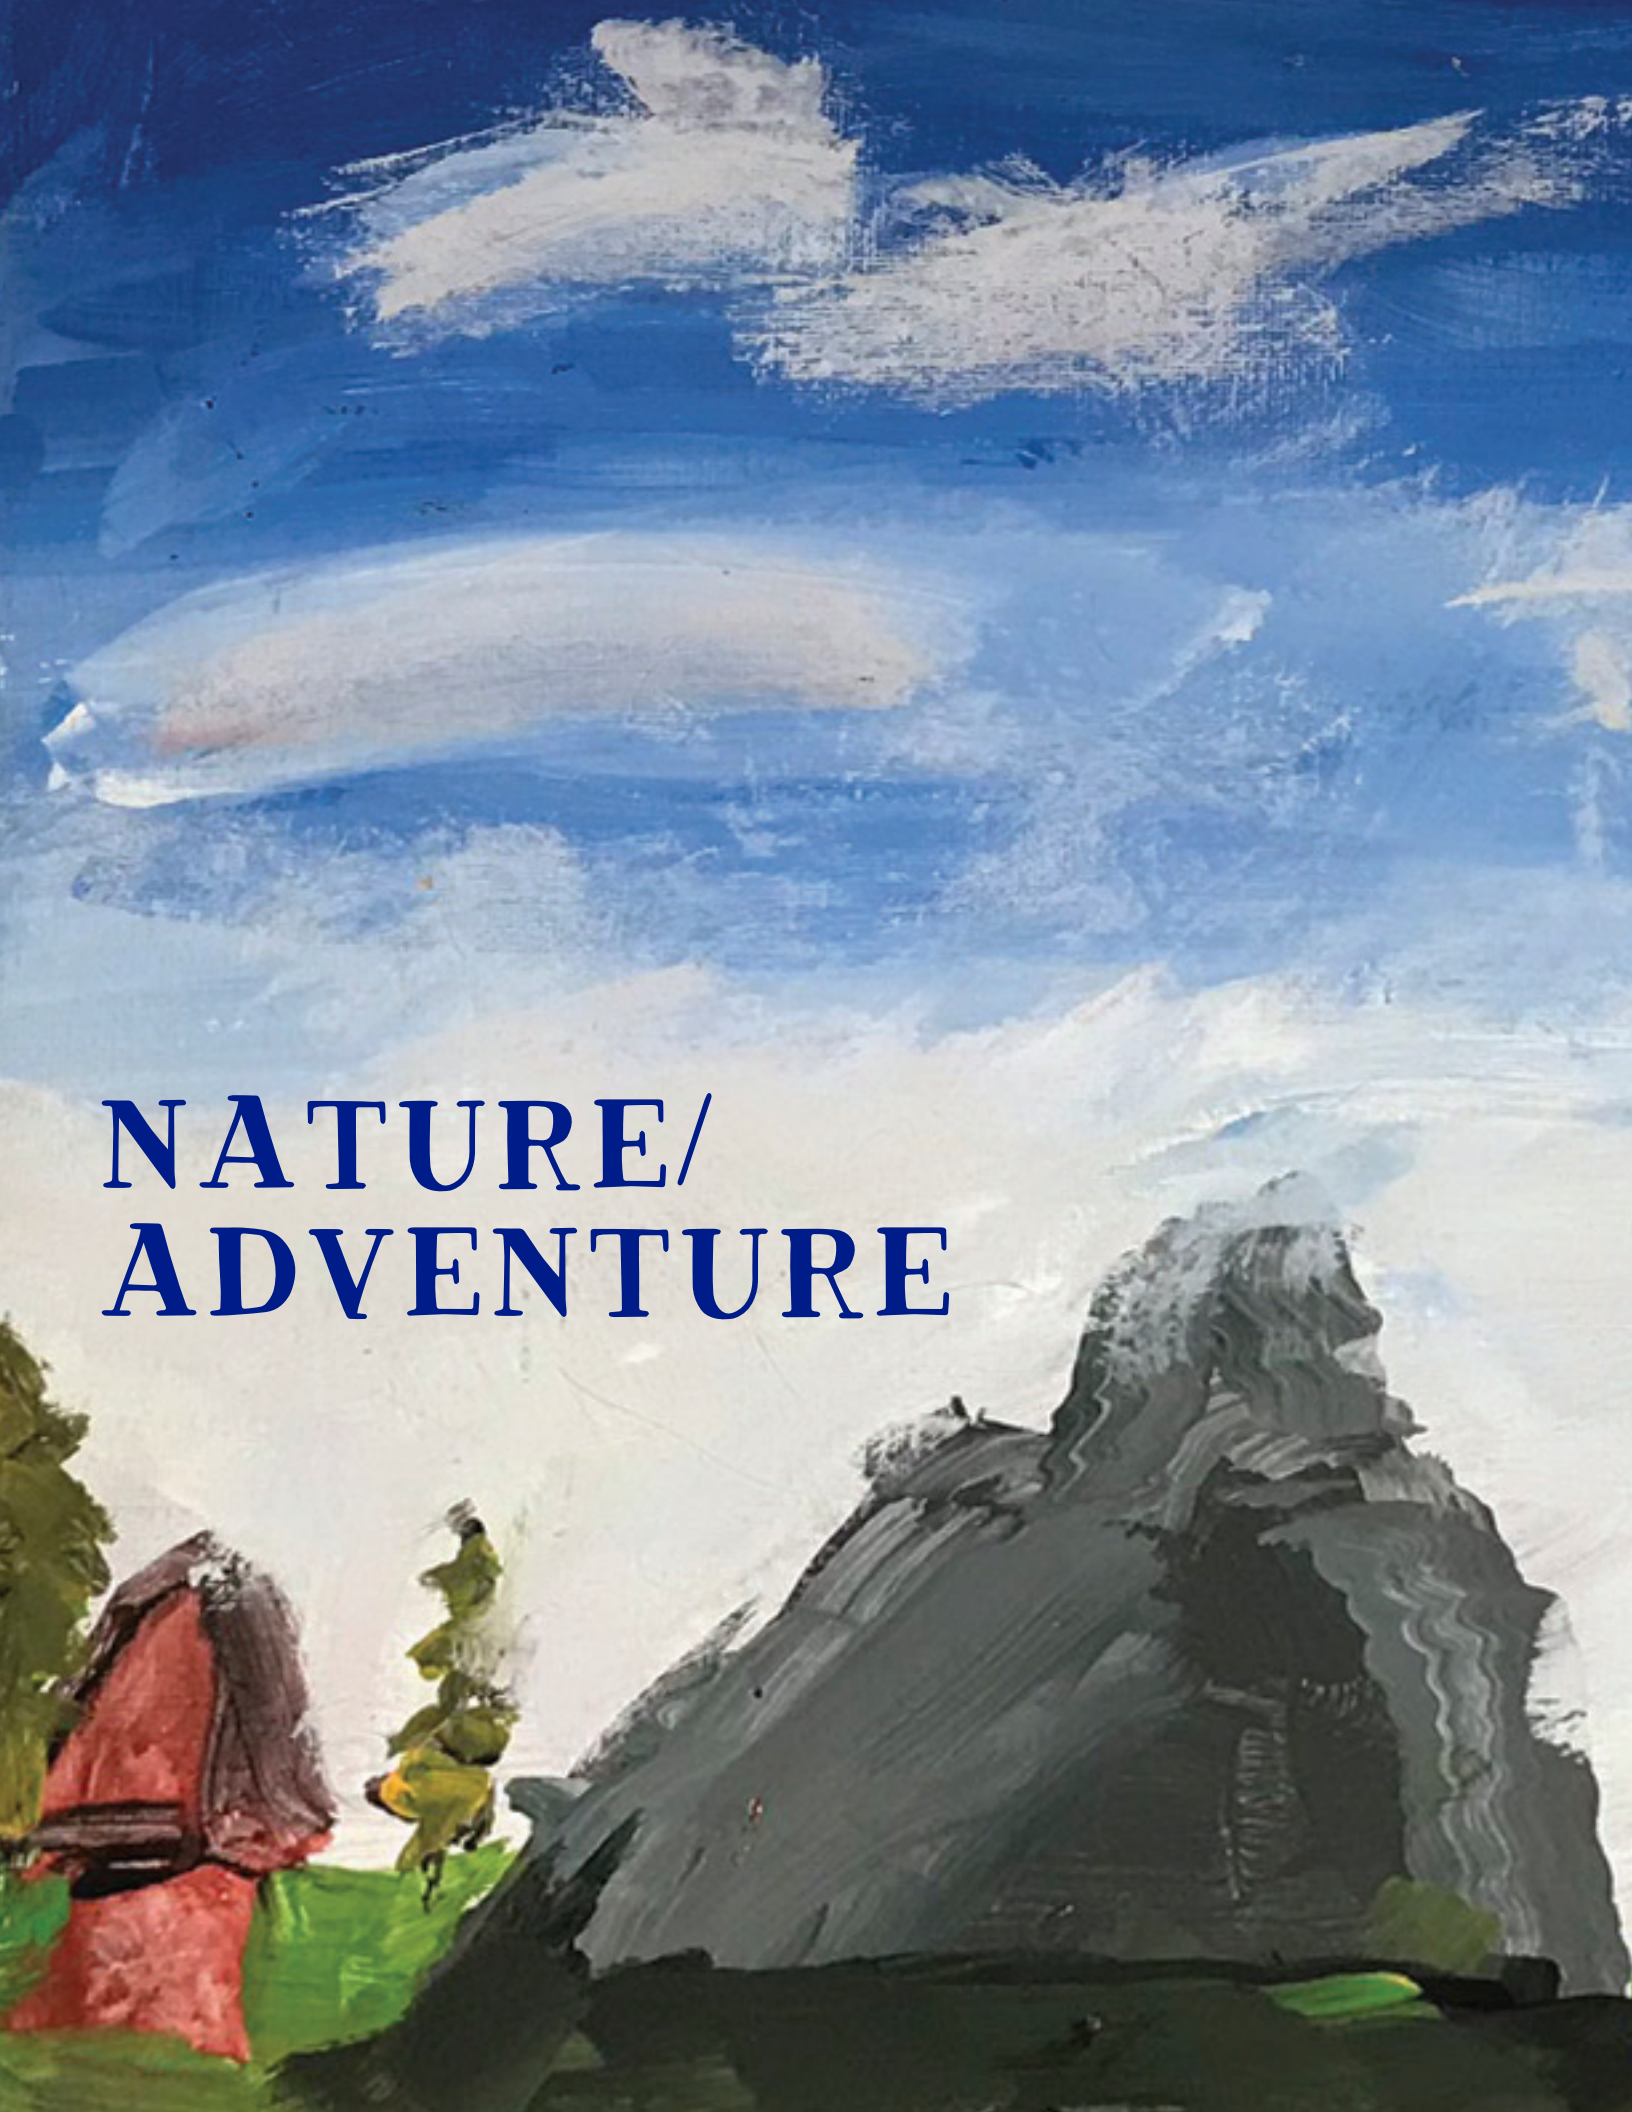

SPECIAL CONSIDERATIONS FOR OVERNIGHT CAMPS

- How far from home do you want your child to go? Do you want to be able to visit?
- Does your child want to stay overnight for two weeks or more?
- How much money do you want to spend?
- Would your child feel more comfortable with children he/she already knows or would your child like to meet new ones? Is there a friend your child would like to bring along?
- What is the food like? Ask for sample menus.
- What is the percentage of participants and staff that return each year?

TIPS TO COMBAT HOMESICKNESS

- Combat homesickness by planning ahead. Involve everyone in selecting the camp and talk openly about the possibility of homesickness.
- Try an overnight at a relative's home.
- Learn the camp's policy on phone calls and visits before your child leaves for camp. When contacting your child, don't go into great detail as they might feel they're missing something back home.
- Keep in touch by giving your child a pre-addressed stamped envelope or postcard so they can keep you informed of their activities.
- Send a note to the camp so it will be there when your child arrives. It lets the young camper know that you have not forgotten them.
- Don't worry. Camp counselors are trained to recognize and deal with symptoms of homesickness.

A painterly landscape scene. The sky is a deep blue with thick, white, textured brushstrokes representing clouds. In the foreground, there is a red tent on the left, a small green tree in the center, and a large, dark grey mountain peak on the right. The overall style is expressive and textured, with visible brushwork throughout.

WDI Child Care Scholarship Program

A crucial support for working families

WDI's Child Care Scholarship Program provides financial support for working families to help cover child care costs.

The average cost of child care for a family with two children is over \$30,000 per year, forcing families to make hard economic decisions.

When families spend less on child care, they can better afford housing and transportation, pay student loans and other bills, and make healthier choices for increased nutrition for everyone in the household.

EXPLORING THE WORLD THROUGH BRAIN BUILDING ADVENTURES

NATURE

Tip

2 1/2-5
YEARS

Rainbow Walk

On your next stroll, team up with your child to find all the colors of the rainbow. Have them point to something in nature and name the color—then you take a turn. The grass is green. Leaves are red. The sun is yellow. What else?

Brainy Background™

Thinking about what objects have characteristics in common (whether it's colors, shapes, or size) sparks connections in your child's growing brain.

TRAVEL

Tip

3-5
YEARS

Once Upon a Time

On a long ride, make up funny stories with your child. You start it off with something like, "Once upon a time there was a teeny, tiny wiggly ant..." Then let them tell you what happens next. Take turns adding to the story and see how far their imagination can go.

Brainy Background™

As you go back and forth inventing a story, the interesting, new, and fun words you use invite your child to add to their growing vocabulary. This is an important part of communicating with others.

OUTDOOR PLAY

Tip

2-3
YEARS

New to You

When they are playing, help your child do things they haven't done before. Try out the swings or the slide at a playground, or even feel the different textures on the ground. As long as they're safe, let them try new things, with a helping hand if they need it. How do they respond? Celebrate what they say and do!

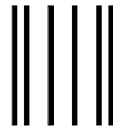

Brainy Background™

Giving your child the chance to do safe things by themselves helps them feel confident and to learn to take on challenges.
